Sabine Reppert is the founder and director of Intent-X Limited, a boutique consulting firm based in Hong Kong, supporting business leaders in driving digital transformation and innovation in the new digital age more effectively.

Sabine has extensive experience in mastering technology innovations and change at a large scale. From 1995 to 2011 she worked as a software engineer, system safety manager, product manager, project management specialist and sales manager in the international railway industry in Germany and the USA. In this capacity, Sabine was involved in defining, developing and rolling out the European High-Speed Network and modernising the New York City Subway Control System.

In 2011, Sabine started her first business in Germany as a coach, consultant and trainer. Since 2014, Sabine is operating her consultancy firm out of Hong Kong. Sabine's focus is driving intentional innovation and business transformation in the field of Smart City, IoT, Blockchain and FinTech by providing tailor-made training, workshops, coaching, consulting and interims management services.

Sabine is a frequent speaker and moderator at Blockchain, Smart City, IoT and IT-Security events. For the at Hong Kong Polytechnic University Sabine served as a guest lecturer in Executive Master for Digital Leadership Development (EMDL) program. Sabine also works as a mentor coach for Blockchain Start-ups and is an active member of the Mettā entrepreneurs club in Hong Kong. Her meet-up group "Blockchain for Smart City" aims to strengthen the Hong Kong Blockchain ecosystem beyond Cryptocurrencies.

Sabine received a Master's in Mathematics from Philipps University, Germany, and specialised in cryptography. Sabine also holds a second Master's in Business Coaching and Change Management from European University of Applied Sciences in Germany and earned additional certificates from HBX Harvard Business School®, ("Disruptive Strategies" by Prof. C. Christensen) and the Presencing Institute (MIT), USA ("Theory-U" by O. Scharmer).

In her first book "Breakthrough - The Art and Science of creating magical Change by using the Example of Theory U", on Leanpub, Sabine describes what it takes to align a complex system of stakeholders on driving innovation and get them into a "group flow".
